

NGUYEN VAN THINH

Game Developer Unity Intern

nguyenvanthinh228866@gmail.com | (84) 866676922 | Ha Dong, Ha Noi | github.com/ThinhDev999

CAREER OBJECTIVE

Short-term: Learn and enhance programming skills, as well as gain experience working in a professional environment.

Long-term: Have the opportunity to become a full-time employee and contribute my value to the company.

EDUCATION

Phenikaa University

2020 - Present

Information Technology

GPA: 2.79/4.0

SKILLS

Programming Language: C#

Tools: Unity, Git

Techniques: OOP, Design Patterns (e.g., Singleton Pattern, Object Pooling)

PERSONAL PROJECTS

2D Platformer Game – "Pixel Adventure"

04/2024 - 07/2024

<https://github.com/ThinhDev999/GAME-2D-platformer>

Game Experience Link: <https://thinhdola999.itch.io/platformer-adventure-hero>

Description: Developed a 2D platformer game with pixel art graphics, where the main character ventures through increasingly challenging levels, incorporating puzzle-solving and obstacle avoidance elements. The game features basic mechanics such as movement, flipping, jumping, double jump, wall grab, wall jump, and dash. A character selection system allows players to choose characters with unique movement abilities.

Gameplay Features: Players progress through 6 uniquely designed levels, each with increasing difficulty. The game also includes a character unlock system, where players unlock new characters as they complete levels. Each character has unique stats such as movement speed (Slow, Medium, or Fast), jump height (Medium or High), number of double jumps (1 or 2), dash ability (Yes or No), attack ability (Yes or No), and wall grab ability (Yes or No).

Enemy AI: Patrolling AI with basic attack (shooting projectiles).

Gameplay Mechanics: Includes physics and joint-based traps, checkpoint system, respawning, and data storage using PlayerPrefs for tracking level and progress.

Audio: AudioManager supports random background music, sound effects, and dynamic music changes based on the level.

UI/UX: Interfaces for game states (win, lose, pause), health display, and title screen.

Controls:

- Movement: WASD or Arrow keys
- Jump / Double Jump: Spacebar
- Dash: Left Shift
- Pause: P
